

LEVELMASTER LM5

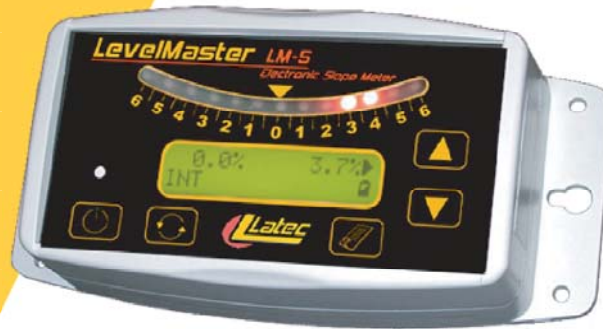

ELECTRONIC SLOPE METER

Introducing the revolutionary digital inclinometer!

Cased in a compact, rugged housing this electronic slope meter is not only a perfect size but is relatively lightweight and is very easy to mount and calibrate.

APPLICATIONS

- Motor graders
- Scrapers
- Dozers
- Drainage plows
- Concrete screeds
- Forktruck

FEATURES AND BENEFITS

- 25% +/- numeric readout slope display at 0.1% measurements
- 6.0% +/- LED bar graph at 0.5% measurement
- Set slope functionality
- Real-time slope display
- Internal battery or external hardwire for permanent installations
- Internal sensors are standard
- External sensor options
- 4-1: 3-1: 2-1 steep slope options with optional remote sensor

Mount on any ledge or surface, then simply press a MENU button to calibrate.

View the bright LED bar graph for real-time slope indication.
